

Topic 20 Practice Quiz

1) Given rectangle ABCD with the following information:

~~$\angle AEC = 50^\circ$~~

$\angle EDB = 55^\circ$

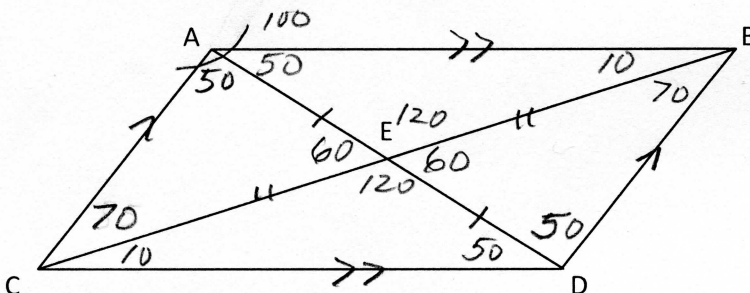

What are the measures of:

$\angle ECA = 55$ $\angle BED = 50$ $\angle EBD = 55$ $\angle ABE = 25$

2) Given Parallelogram ABCD with the following information:

$\angle BED = 60^\circ$ $\angle EBD = 70^\circ$ $\angle CAB = 100^\circ$

What are the lengths of:

$\angle ECD = 10$ $\angle EBA = 10$ $\angle CAE = 50$ $\angle CDE = 50$

3) Given Rhombus ABCD with the following information:

$\angle ABD = 80^\circ$

What are the lengths of:

$\angle AEB = 90$ $\angle ECD = 40$ $\angle EBD = 40$ $\angle EAB = 50$
