

Quadrilateral Pamphlet

Directions: Choose one quadrilateral to focus on, and design a pamphlet as if this quadrilateral were a product that you needed to advertise/sell. Be sure to include the items listed below. Feel free to add any additional material that you feel might enhance your pamphlet (i.e. extra illustrations, slogans, etc...). Be neat, creative and have fun.

Be sure to include the following items:

- Pamphlet title and catchy phrase about your chosen quadrilateral.
- Complete definition - correct mathematical language
- All of the properties of the chosen quadrilateral.
- At least 5 examples of “real world” examples where you can find the chosen quadrilateral.
- At least 3 pictures/drawings of the chosen quadrilateral, including a diagram with the properties correctly marked.
- Compare and contrast your chosen quadrilateral and its properties to the other quadrilaterals and their properties.

You will also be required to have 2 peers each fill out a feedback form, offering you constructive opinions about how you can improve your design, content, creativity, etc.
