

Topic 14 Practice Quiz
Triangle Properties

- A) Acute G) Scalene
B) Obtuse E) Isosceles
C) Right F) Equilateral
D) Equiangular

- 1) A triangle with an angle greater than 90 degrees and two side that are equal in length would be both B & E
- 2) A triangle with all angles less than 90 degrees and no two sides equal in length would be both A & G
- 3) A triangle with all angles equal would be: D & F & A & E
- 4) A triangle with all angles less than 90 degrees and two sides equal in length would be both A & E
- 5) A triangle with an angle equal to 90 degrees and two sides equal in length would be both C & E
- 6) A triangle with an angle greater than 90 degrees and no two sides equal in length would be both B & G
- 7) A triangle with an angle equal to 90 degrees and no two sides equal in length would be both C & G
